ROLL-OFF TRUCKS AND MORE

Productivity is at the heart of every Stellar Hooklift, Roll-Off and Container Carrier Truck. Whether you're hauling dumpsters, delivering rental equipment, transporting construction supplies or any of dozens of other jobs that involve pick up, hauling and placement, you'll find a container carrier choice that's just right.

A hooklift truck is the ultimate in productivity and versatility, and Stellar's NXT Series, Shuttles and Sliders lead the way. With just one hooklift truck and one operator, you can handle a wide range of jobs per day. Just change the body and move on to your next task, quickly and easily.

Dumpster hauler trucks, sometimes called dumpster delivery trucks, quickly and efficiently place, haul and pick up a wide range of waste, recycling and scrap dumpsters. Stellar's CC, CCR and ECCR Container Carriers are compatible with both front- and rear-load containers in sizes ranging from two to ten yards and loads up to 8,000 lbs.

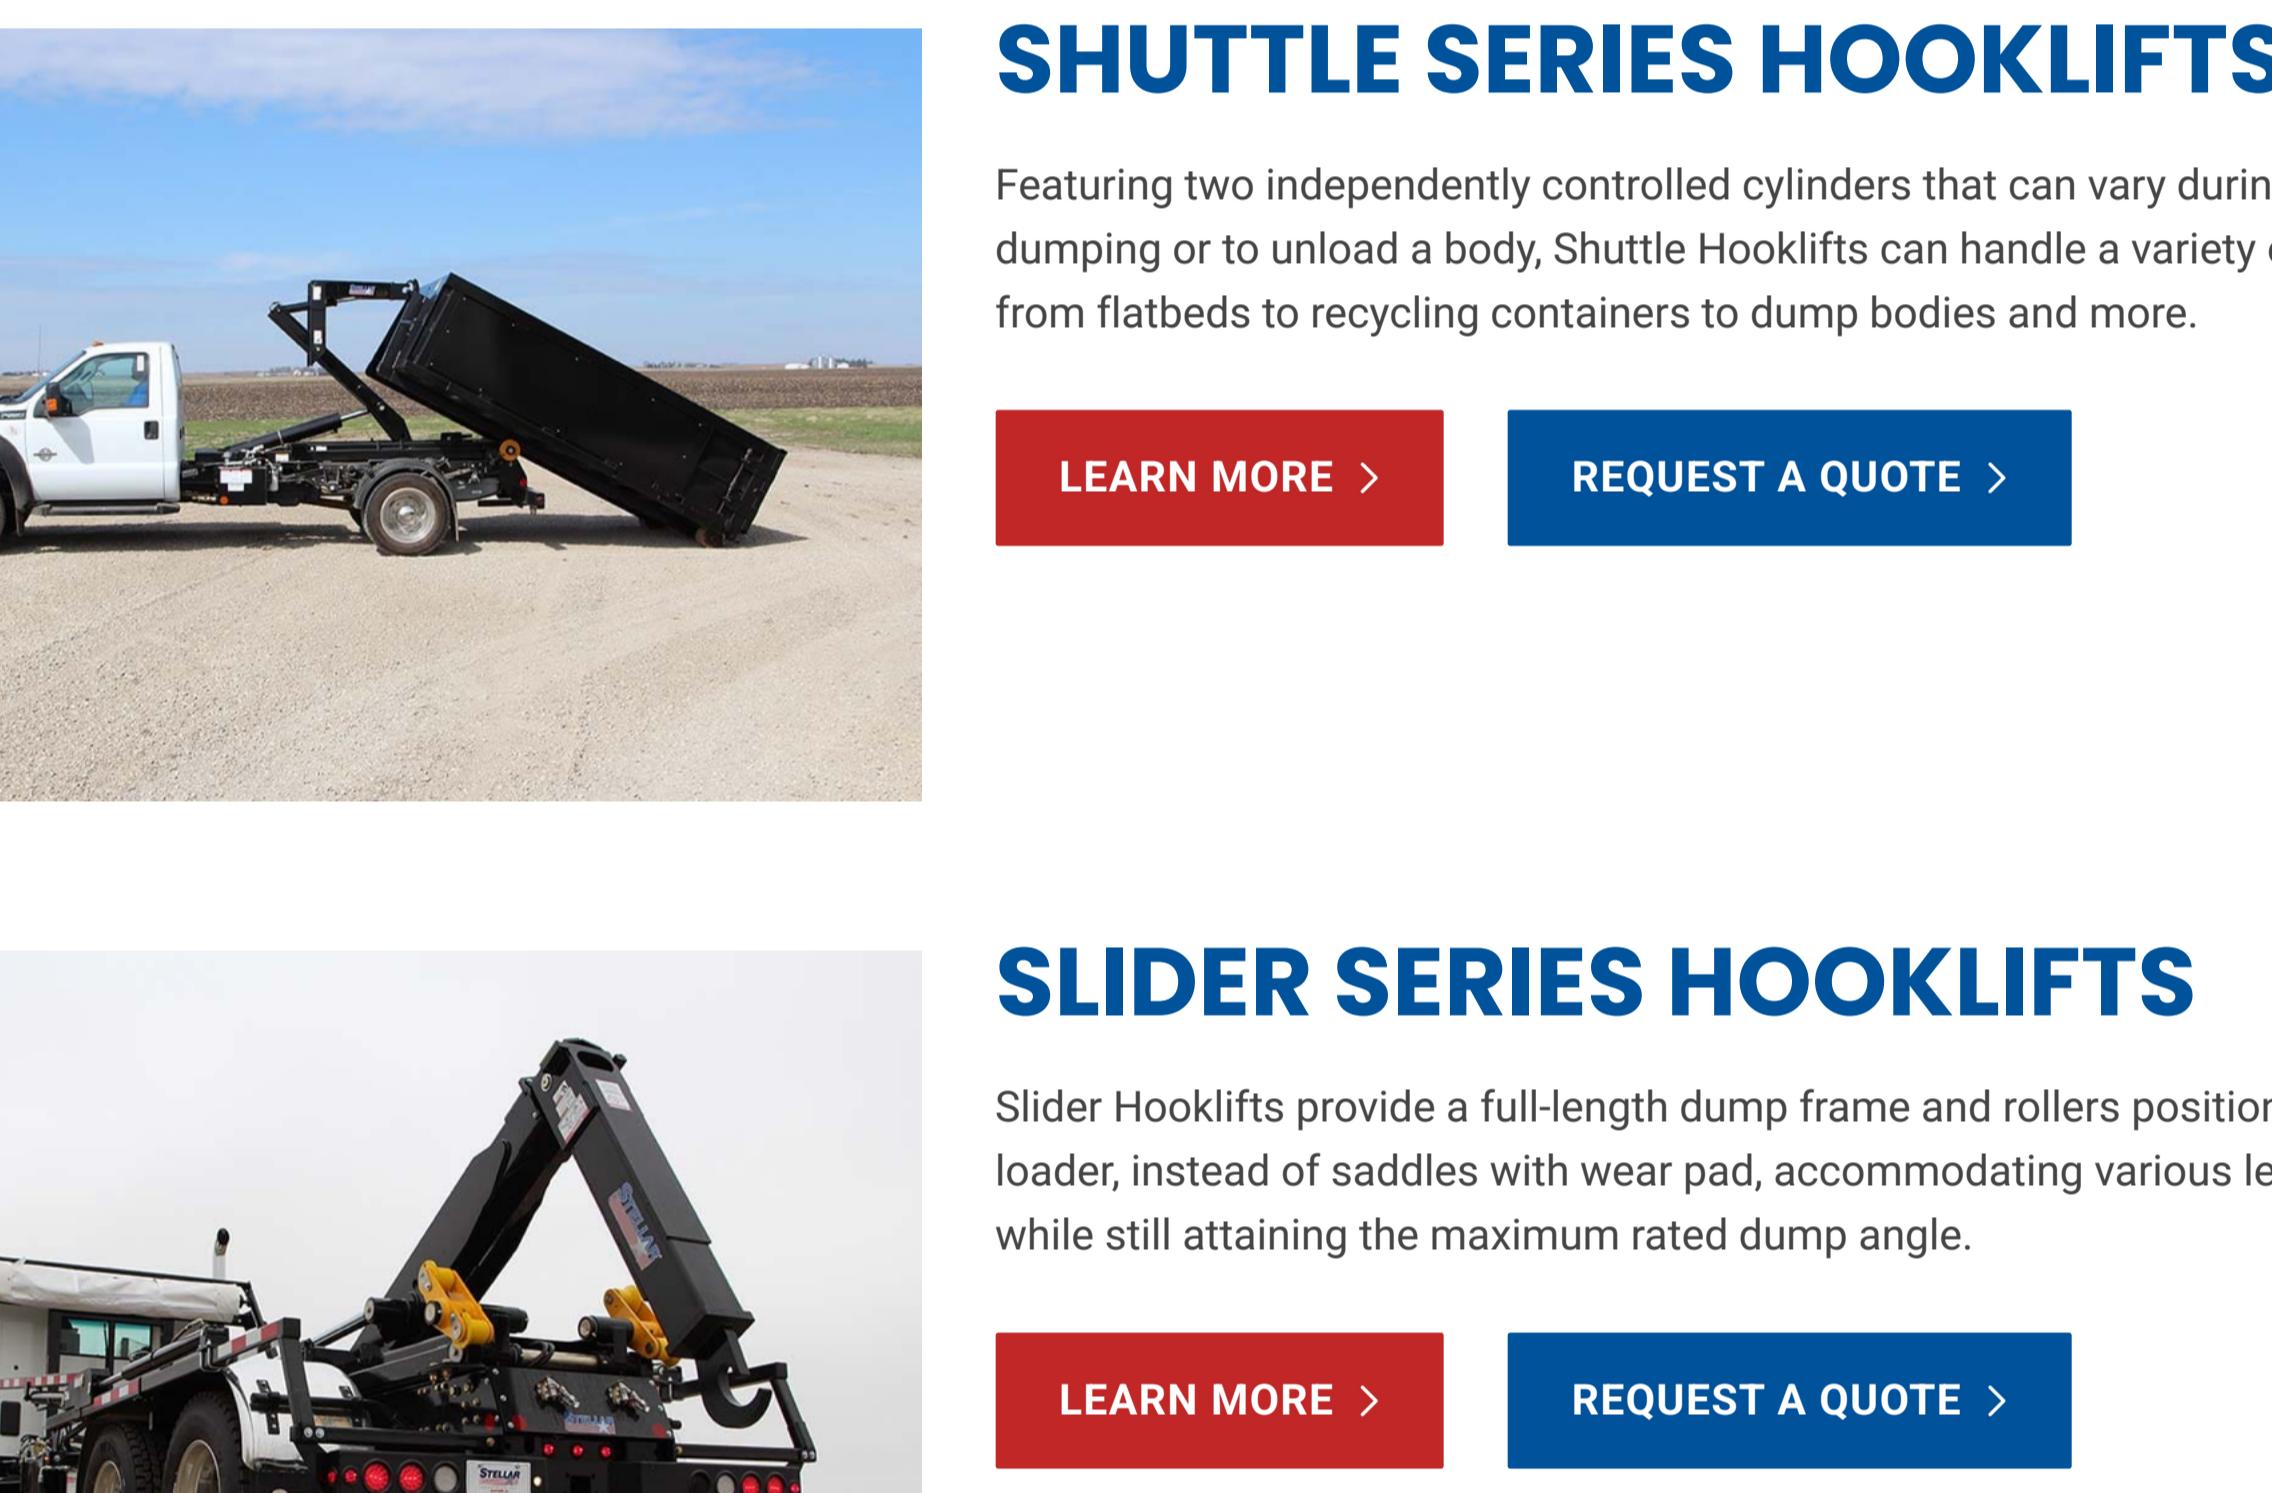

Customer Story: Check out two businesses that have been using their Stellar Hooklift for more than 30 years.

Efficient & Reliable

Stellar's container carrier lineup is built to handle rugged work schedules, maximizing uptime to help your business get more done in less time. Every Stellar Hooklift Truck and Dumpster Hauler is designed with balance for a smooth rise and engineered for efficient loading and unloading. Manufactured to exacting standards by a dedicated team using top-quality materials, they give you the dependable performance you need day in and day out.

Best of all, they're backed by Stellar, one of the world's leading names in container carrier trucks. Stellar was established in 1990 as the first U.S. corporation to design and manufacture a domestic hydraulic hooklift hoist and remains the premier manufacturer and supplier of hooklifts in North America. That same commitment to quality can be found in every roll-off truck and dumpster hauler as well.

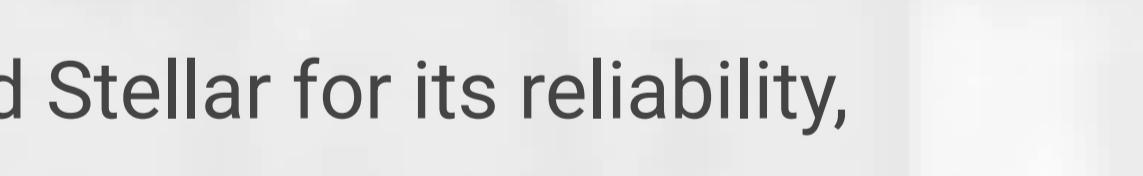

NXT™ SERIES HOOKLIFTS

The next level in hooklift design, NXT Series Hooklifts include innovative design features like a best-in-class lost load height and a unique bolt-on body latch system for universal adjustment inside and outside.

SHUTTLE SERIES HOOKLIFTS

Featuring two independently controlled cylinders that can vary during operation for dumping or to unload a body, Shuttle Hooklifts can handle a variety of bodies ranging from flatbeds to recycling containers to dump bodies and more.

SLIDER SERIES HOOKLIFTS

Slider Hooklifts provide a full-length dump frame and rollers positioned throughout the loader, instead of saddles with wear pad, accommodating various lengths of bodies while still attaining the maximum rated dump angle.

CONTAINER CARRIERS

Models include the base CC with an 8,000-lb. lifting capacity, the CCR with dumping and rotation capabilities, and the ECCR with an 8,000-lb. lifting capacity plus an extendable fork body.

OTHER EQUIPMENT

Use the Cable Hoist Container Hooklift Adapter Kit to convert winch-style cable hoist containers for use with hooklifts. You'll get the benefits of hooklift productivity without the cost of new containers, plus the containers will still work with your winch-style cable hoist trucks.

I picked Stellar for its reliability, consistency and ability to pick up heavy dumpsters. I needed something that wouldn't break down. That was a huge factor so the truck can stay on the road and do its job."
